WORK EXPERIENCE

Yerevan
Sep 2022 - Present

Freelance UI/UX Designer

DevGrid — Engineering Operations Platform

- Designed UX/UI for internal engineering and operations workflows
- Translated complex technical processes into clear, usable interfaces
- Delivered structured, developer-ready Figma designs

Upsield — Cybersecurity / Web3 Platform

- Designed product interfaces for cybersecurity and Web3 use cases
- Focused on trust, clarity, and information hierarchy in sensitive flows
- Created responsive layouts and reusable UI components

SiteCurve — SEO Intelligence SaaS

- Led UI/UX design from low-fidelity wireframes to polished visual design
- Designed data-heavy dashboards, tables, and filtering systems
- Improved readability and usability for SEO professionals

Sentrys — Healthcare SaaS Application

- Designed healthcare-focused interfaces with emphasis on clarity and accuracy
- Worked on complex data presentation while maintaining usability
- Ensured consistent UI patterns across the application

Passport Parking — Design Refresh & UX Improvements

- Improved existing UI by refining layout, spacing, and visual hierarchy
- Enhanced usability without disrupting existing user flows
- Modernized interface while maintaining brand consistency

Graphic Designer

- Designing banners, flyers, booklets, business cards
- Editing and retouching photos
- Preparing files for laser cutting

Graphic Designer

- Designing banners, flyers, booklets, business cards
- Printing large format banners
- Cutting vinyl films
- Creating souvenirs and toys for different events
